

BERTL'S BEST 2007

12th Annual Awards

*Best Cost Recovery & Print Management
Solution for Professional Services Firms*

Equitrac Professional 5

- ***Embedded on multifunction devices, or through the new TouchPoint Console & traditional control terminals, Equitrac Professional 5 integrates with all scanning solutions and provides complete matter-centric cost recovery on new and legacy office equipment***
- ***Through Active Integration with all leading time & billing systems, Equitrac Professional 5 automatically exchanges client/matter information and expense transactions in near real-time which increases billing speed and accuracy***
- ***Document Management System integration, which enables auto-extraction of client-matter information from the document profile - leverages existing systems and reduces unnecessary user input***
- ***Definable print rules and least cost routing direct large jobs to the most efficient devices and assure responsible use of color devices. Follow-You Printing™ with Secure Document Release eliminates wasteful unclaimed printing or reprinting of lost pages by holding print jobs in a secure server until users authenticate themselves at the network printer of their choice thereby increasing billable productivity while enhancing document security***
