

ADVANTAGES

- ▶ Manage Copy, Fax, Scan and Disbursement Costs
- ▶ Enhance User Efficiency
- ▶ Space-saving Copy/Fax Option

BENEFITS

- ▣ Plugs into your existing network environment
- ▣ Easy to read display
- ▣ Full data security in the event of power outages
- ▣ Space-saving compact design

Equitrac's Flexible Control Terminal

In today's fast-paced business world, companies need to be able to adapt to growth and new technologies while, at the same time, maintain a manageable workplace environment that manages costs at every level.

PageCounter is versatile, modular, and user-friendly control terminal, fitting into any environment. From simple user authentication to robust search, scan and recall features needed in professional charge-back environments, the PageCounter supports all of your needs. Adding to its sleek design, the new flexible architecture provides a number of new options and benefits including a full keyboard, offline storage and validation capability.

PageCounter is equipped with real time TCP/IP communications, small space-saving footprint, an easy to operate keypad, and an optional magnetic card reader if required. PageCounter also offers standard dual Ethernet ports for mini-hub capability. This permits firms to connect the PageCounter and a networked multifunction device into a single network drop. PageCounter introduces a new level of convenience by accurately tracking walk-up copy, fax or scan jobs. Used in conjunction with Equitrac's software suites, PageCounter provides a complete solution for office automation cost allocation. In addition, PageCounter's offline capability ensures copier usage during network failures.

Page Counter's flexible design allows organizations to select exactly the configuration needed for their environment.

The PageCounter terminal is versatile, modular, and user-friendly, fitting into any environment.

PageCounter

ADVANCED FEATURES

Usability Features

- Easy to read 4 line display
- Up to 16 data entry prompts
- Optional Search, Scan and Recall keys
- SmartPrompt for conditional prompts
- Speed & Job Codes for quick data entry
- Space saving copy/fax terminal option
- Remote diagnostic capability
- 3 large configurable keys for easy usability

Software Features

- Configurable IP address (DHCP, BOOTP, or Manual)
- Stores up to 10,000 transactions
- Supports 100,000 user/client/matter codes
- Transactions sent and table data updated in real time
- Up to four alternate modes of operation
- Detects and accurately tracks Group 3 (G3) and Super G3 (V.34) fax activity
- Supports scan tracking from selected multifunction devices

Hardware Features

- 10/100 Ethernet port
- Dual Ethernet ports offer mini-hub functionality
- High-speed 32-bit processor
- 64 MB compactflash data storage for offline capability
- Adjustable mounting bracket for wall or table mounting
- Integrated Super G3 (V.34) fax tracking components in fax terminal
- Optional QWERTY Keyboard with separate numeric pad
- Optional Magnetic stripe reader support

PageCounter offers proven cost recovery options to make its usage quick and efficient. The Search, Scan and Recall features help find accounting information simply by pressing a button.

SmartPrompts enable access to conditional fields. Speed Codes and Job Codes simplify the entry of data by creating one simple unique code to replace multiple fields of accounting codes.

Offline capability ensures no lost data and that network errors don't affect copying.
